Progressives a Law Unto Themselves.

The San Francisco Call is wasting time and breath in pointing out that John D. Works has repudiated the pledge he made when he became a candidate in the primary election for the advisory vote for Senator. He repudiated the law under which he became a candidate when he refused to abide by the result of the election.

In one breath he says the law is of no consequence and in the next alleges that it gives him a claim on the Senatorship. When Judge Works offered himself as a candidate under the direct primary law he by that act acknowledged that the law was morally binding. (Nobody ever claimed that it was legally binding). At the same time he agreed to the terms of the law. Moreover, he stated in writing over his own signature, during the campaign, that he would "stand or fall upon the advisory vote of the people at the primary election."

Which of course meant that he stood upon the provisions of the law. Now he refuses to abide by the result of the election, and declares the law to have no binding force. Then he amends the law and says it is morally binding or rather he has repealed the law and given out a decree of his own as a substitute.

Judge Works is truly a "progressive." He has not progressed quite as far as Chester H. Rowell, but he has reached the stage of progressiveness where he will not allow his pledges or the letter of the law to stand in his way. Rowell says the law allowing an advisory vote to be cast for Senators is not to be regarded because it was passed by a Legislature notoriously under railroad influence, and furthermore, that no heed should be given to it because the other fellows won out under it. The whole of the direct primary law was passed by the same Legislature, but Rowell takes the parts that suit him and sponges the rest out of the statute books. Judge Works merely eats his words and twists the law around to fit his purpose.

But what's the use of saying anything about it? Has not Meyer Lissner decreed that Works is to be elected, and is he not the law and the prophets so far as this Legislature is concerned? What is the law, anyhow, betwixt progressives?

For once nobody kicks against the rain. Its coming has made everybody happy.

Fresno lacks 108 inhabitants of being in the 25,000 class, but she has forged ahead of Stockton so far as population is concerned. But she has been passed by Berkeley and Pasadena, which have also given San Jose the go-by. Berkeley has outstripped San Diego and Alameda as well as San Jose, Fresno and Stockton. Still all the California cities made good progress during the decade just closed and it is hardly generous for the more fortunate ones to crow over the others. Besides comparisons are odious.

German Supersensitiveness.

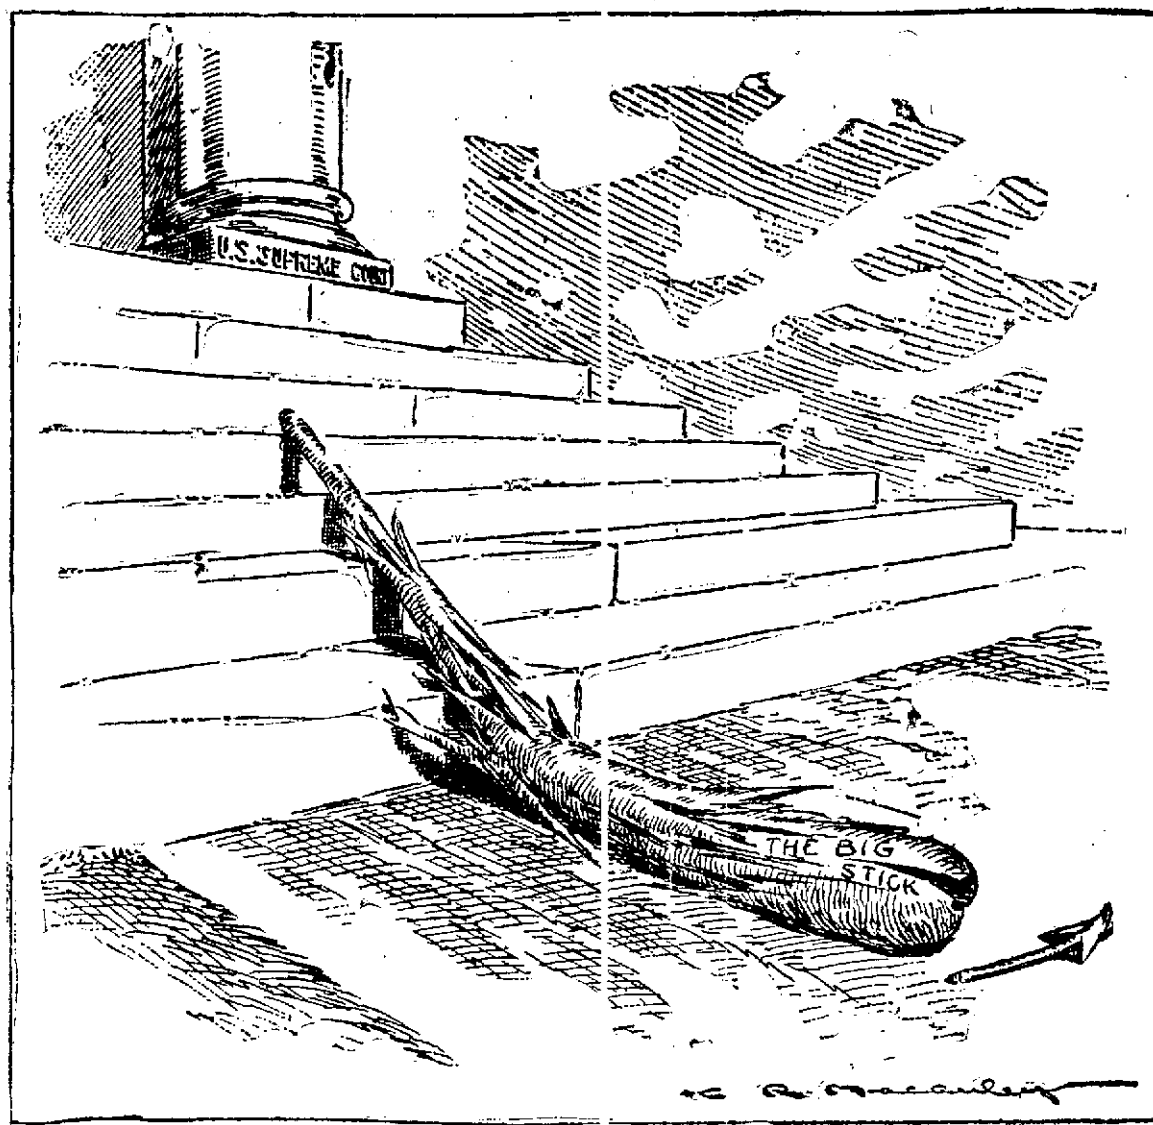

Commander Sims, who, in a moment of too generous enthusiasm at the banquet board, pledged the United States to an offensive and defensive alliance with Great Britain, has provoked a resentful protest from Germany, and will be reminded by his superiors at Washington that he had better not talk through his hat in future. He should have remembered what happened to the late Admiral Coghlan, then a commander, when in jovial mood he recited "Hoch der Kaiser" by way of post prandial diversion. Coghlan was hauled over the coals for speaking disrespectfully of the German Emperor, and Sims should have kept the incident in mind. However, the whole matter is ridiculous. If some half-shot German subaltern were to recite doggerel satirizing the President of the United States or pledge a German alliance with Japan we would merely laugh at him on this side of the water. But the Germans have grown absurdly sensitive of late years. Like Don Caesar in Moliere's play they are forever taking offense at trifles and making mountains of mole-hills. It is astonishing how a people so sensible and sober-minded have so suddenly become touchy, capricious and suspicious, valorously defending their national honor against the hiccoughs of fuddled lietenants and protesting against "insults" given by jocular squibs. It is not like the German character to strut around like Bombasteo Furioso, sniffing the soup for scent of blood and glaring about for signs of disapproval. This perpetual looking for affront and finding offense in the pecking of jackdaws by a great nation is tiresome; moreover, it is ridiculous and gives occasion for satiric banter. The lion should not roar in wrath every time a chipmunk squeaks in the brush. But it seems that national pride is becoming a disease in Germany, a breeder of distempered fancies and ludicrous deas of national dignity. Could anything be more absurd than the thundering of the German press in response to the vicious speech of poor Sims?

Former Senator Foraker's contribution to the history of the negotiation of the Hay-Pauncefote treaty shows conclusively that Great Britain tacitly consented to the United States fortifying the Panama canal. The treaty originally concluded between Secretary Hay and the British Ambassador contained a clause forbidding the United States to fortify the canal, but the Senate struck this provision out. The treaty was then rejected by the British ministry. Finally the matter was adjusted by a clause empowering the United States to police and protect the canal. By implication this clause concedes the right of the United States to fortify the canal as a means of protecting it and maintaining its neutrality. Senator Foraker drafted the clause himself and states that it was worded with this end in view.

Railroads Coming to California.

It looks as if California would be invaded by two more trans-continental railroads in the near future. Mr. Yoakum, the head of the St. Louis and San Francisco system, says that system, which now has a western terminus in the Texas panhandle, has decided to build through to Los Angeles. Evidences are multiplying that J. J. Hill intends to project the Burlington into this State, probably to Oakland, but whether he will cross the Sierra Nevada over the Western Pacific's tracks or build a separate line is not yet manifest. If the Burlington and the Frisco build into California the Rock Island will be placed at a disadvantage unless it should reach San Diego by an extension of the El Paso and Southwestern which now extends as far west as Bisbee, Arizona. The Rock Island now has a through passenger service from Chicago to Los Angeles, coming to California over the Southern Pacific's line from El Paso. Apparently all the big western trunk lines are looking for Pacific terminals in this State, which is another evidence of the importance California is assuming in the railway world. Let them all come. There is business here for them all, and those that build here first will fare best.

SHATTERED

NEW YORK WORLD.

Proscription and Spoils.

News comes from Sacramento that if Alden Anderson, Superintendent of Banks, refuses to resign he will be legislated out of office under pretense of revising the laws regulating banks and building and loan associations. It is frankly stated that the object of the proposed revision is to get certain men appointed by Governor Gillett out of office that Governor Johnson may fill their places with appointees of his own selection—in short, that partisanship and patronage are the incentives in the proposition.

There must be something wrong about this. Such a proceeding would be a direct violation of the policy that Governor Johnson announced would govern his conduct in the executive chair. We cannot believe he will inaugurate a scheme of legislation merely to grab patronage or to displace officials who have politically antagonized him. We feel quite certain that the band of patronage hunters and spoilsmen who have followed him to the capital have originated this discreditable program of their own motion.

Any attempt to legislate Alden Anderson out of office would be peculiarly flagrant. The new banking law is working well, and no allegation is made that it is in need of revision. Mr. Anderson has made an admirable record as Superintendent of Banks. No one has ever complained of his official acts; his fitness has never been questioned, nor has his integrity ever been impugned. He is strong in the confidence of the bankers and is faithfully enforcing the law. There is no reason why Mr. Anderson should be superseded or the law revised.

Mr. Anderson competed with Mr. Johnson for the gubernatorial nomination, but that is no reason why the power of the Legislature should be invoked to oust him from an office he has filled to the satisfaction of the public. Charles F. Curry also aspired to the gubernatorial nomination, but that does not unfit him for the office of building and loan commissioner. For twelve years he was Secretary of State, and his record in that office was that of a model official. To proscribe him for daring to assert the common right of every citizen to be a candidate for office would be unusual and unjust. Surely Governor Johnson is not going to declare that every man who competed with him for the nomination is a public enemy. He will make a grave mistake if he does.

However, we shall soon see whether the camp followers are merely breathing the hot air of greedy fancy or are speaking by the card.

Judge Works is quoted as saying that he regards the vote on the Senatorship, cast at the primary election as inclusive and of no binding effect. Why, then, does he assert that it has given him a title to the Senatorship? He received a little more than one-third the votes cast for Senator, but less than thirty per cent of the Republican votes cast at the primary. He is not the designated choice under the provisions of the primary law which he regards as something of a hoax, and he says the result of the election is inconclusive and farcical. Yet he claims rights under this inconclusive vote cast in pursuance of a statute that is without legal or moral binding force. He has read into the law something that is not there, and then declares that the law itself amounts to nothing. However, a man who consecrates himself to the political regeneration of his countrymen cannot be expected to be either consistent or logical.

During 1910 the births in Greater New York exceeded the deaths by 52,237. At this rate the metropolis is growing rapidly by natural increase—more than half a million a decade. Moreover, the death rate of New York last year was the lowest in the history of the city—15.98. New York is in fact one of the very healthiest cities in the world, having a lower death rate than either London, Berlin, Paris, Vienna or St. Petersburg.

Young Men of Today

The young men of the present day seem singularly lacking in a sense of things formative, of things doctrinal in political affairs. Happily, they did not pass through times that tried men's souls. They take their come and go, parties rise and fall, the will of the majority to them represents merely the relative popularity of two antagonistic policies, or of two opposing aspirants. That there is any danger of revolution of essentials, is furthest from

their thought. If they have head history, they do not apply it—certainly they do not take it home to themselves. If they have been taught some of the rudiments of the constitutional system under which they live, they do not assimilate them to current affairs, or associate them with prevailing conditions. Further than to assume that since they have endured a hundred years they will last a thousand, and that they need no particular attention. To them the reminder that "eternal vigilance is the price of liberty" has little meaning. They did it simply democratic clap-trap.—Coulter-Journal.

A Forward Look

By ALFRED J. CASE,
Pastor of Centennial M. E. Church.

Rev. Alfred J. Case.

Paul wrote to the Philippians: "Forgetting the things which are behind, and stretching forward to the things which are before, I press on toward the goal unto the prize of the high calling of God in Christ Jesus." This same spirit is in the hearts of many at this season of the year. Our aims are all toward better things for the coming year. Remember, first, last and all the time, that "the prize of the high calling" is always attained—and it is attained only through efforts. It is never given away.

What are our expectations for 1911? Most of us will spend the year amidst our present surroundings. Our occupation will remain unchanged. Our advantages socially, spiritually, intellectually, will be practically the same. But shall there be no advancement? Our aims are all toward better things for the coming year. Remember, first, last and all the time, that "the prize of the high calling" is always attained—and it is attained only through efforts. It is never given away.

This new year time let us lay to heart this one truth: That life is one continuous whole, a march toward a definite end, and things which men so often call trifles are things of unmeasurable importance.

Universities

The total of Mr. Rockefeller's gifts to the University of Chicago is stated to be \$34,428,948. Gifts from all other sources amount to \$7,154,709, making a grand total of \$41,583,657 to date. This makes it reasonably certain that the dream of the late President Harper of a \$50,000,000 foundation will yet be realized. Chicago's great university may be considered as the most amply endowed and equipped of modern institutions in its class, excepting only Columbia, whose invested funds will about equal Chicago's. Mr. Rockefeller's gift added and whose real estate is far more valuable, and possibly Harvard.

A form of expansion which will be increasingly common with the modern university is instanced in the gift of \$1,600,000 to bring about an alliance between the Presbyterian hospital and the medical school of Columbia university. It is by such alliances that modern foundations, from London to Johns Hopkins, are built up.—New York World.

Philosophy Pills

Honor is a luxury to a millionaire but a cold necessity to a poor man. Beware of the silent man and the dog that does not bark. Ambition often turns out to be a balloon without a parachute attachment.

HABITS IN FIGURES

We are drinking more alcoholic drinks than ever, more not only in gross but per capita. So the Internal Revenue Bureau says after totaling up its receipts for the year ended on the 30th of last June. Here is its report of some of the products that paid taxes:

155,000,000 gallons of distilled spirits, 30,000,000 gallons more than the year before.

55,485,127 barrels of fermented liquors, an increase of 3,000,000 barrels.

7,600,000,000 cigars, 150,000,000 more than 1909.

6,830,000,000 cigarettes, an increase of 1,000,000,000.

402,000,000 pounds of plug, fine cut, cut, granulated or sliced smoking or chewing tobacco, 4,000,000 more than the year before.

141,862,382 pounds of oleomargarine, 50,000,000 pounds increase.

It is possible that in spite of the Internal Revenue figures the manner of drinking may be improved and the drinks better distributed.

It bears on this subject that of the 9,000,000 of population in New York state 7,000,000 live in cities. Local option in this state is confined to country townships. The increase of city population all over the country has doubtless a relation to this increase in the consumption both of alcohol and tobacco. The nervous tension of city life is greater than of country life, calling convenient opportunities to get them. Drinking and smoking too are both social practices and there is more society in the cities than in the country.

The consumption of spirits has increased more in proportion than the consumption of beer, and the consumption of cigarettes more than of cigars. The report is not complimentary to legislation. —Harper's Weekly.

SHORTEST DAY IN YEAR

It is the general impression that the shortest day of each year is December 21 and that the longest is June 21. These dates are the central periods of the supposed "turning point" of the sun at its northern and southern extremities of its apparent journey up and down the earth.

According to the calculations of the makers of the correct almanacs, these days are by no means the fixed and certain dates of the "longest" and "shortest" periods during which the sun's rays shine upon us.

As a matter of fact there is a difference of only a few fractional seconds between the lengths of the days of this year for a period of about two weeks in which we are now in about the center.

Furthermore—December 21—that day which the great majority are prone to accept as the shortest—is in reality longer than December 20 or December 22, 23 and 24.

The following set of figures, taken from the recognized authority—The World Almanac—will prove of interest to all of those who care to know that some of the generally recognized statements of supposed fact are really in error.

These figures are those for the Boston Meridian, but the relative difference is the same in all localities upon the hemisphere.—Seattle Times.

OUR NATIONAL INCOME

The dividend and interest paid on securities the last year amounts, it is said, to about \$1,600,000,000. It is a very large sum but, distributed per capita, it would amount to about \$20 a year to each citizen.

We make honest also of the balance of trade for the year but in both cases there is a tendency of overlook the fact that the money invested which returns interest and dividends is so large as to make the report after all look like a small return on the investment, for it does not average 1 per cent, and with respect to balance of trade, we have to export an excess of \$500,000,000 or \$600,000,000 a year in order to pay our debts abroad and the money spent by tourists.

Yet the showing might be so very much worse in both respects that it is a matter of fortunate congratulation that our people are prosperous enough to have such a volume of interest and dividend, which in itself is but a portion of the returns of industry in the United States. The figure is based upon the known stock investment or bond issues that are recorded in exchanges and in books devoted to the subject.

It is the money return alone rather than total income for we know that the entire output will be consumed within the next year. The income of this great people of ours is really beyond calculation within better than merely approximate terms, but every dollar of it is earned by somebody's work.—Buffalo News.

SLANG AND IGNORANCE

The "argot" of the French tongue almost equals in volume the language which Racine, Corneille, Moliere and a thousand lesser Academicians spoke and wrote. The Anglo-saxon slang increases apace; it would seem that with all our incomparable wealth of words they do not appeal to the people, who wish elegant, lucid, lucid, lucid of phrase. The eye of the lover of letters—the humble disciple of the tongue which Shakespeare and Milton wrote—seems displeased. Style in writing may be defined as a sufficient and artistic expression of a very thought. Surely there are words in plenty in the English language to accommodate an author.

Why does he resort to slang?

The reason seems to be commercial—a clever appeal to ignorance. The main body of the people employ about 1500 words they do not apprehend.

They cannot enter into sympathy with the student of our language to whom the lexicon is a treasury, each word a poem with a history, and to be coined with greatest care.

One need not be a philologist to appreciate the value of words. They are the precious blossoms which separate us from the brutes. Every word has a history, and many of them a romantic one. To dodge the splendid fund of wealth at hand and invent strange and vulgar "fables in slang" or other outcrops upon the speech in which we were born is lamentably ignominious, even slandering, and yet robbing the saving grace of a mastery of his language. Alphonse Daudet did it. So did Mark Twain. So did the late O. Henry. But the bulk of slang writers today do not use our noble language; they abuse it cruelly.—Philadelphia Press.

SPACE ANNIHILATION

In less than twelve days the great ship Mauretania crossed and recrossed the ocean.

This time included the taking on of cargo and coal.

Naturally, the owners of the Cunard company are elated over the performance of this levitation of the seas.

To America and back in twelve days is record-breaking in its way, it certainly is a well done as compared with the space once accomplished by clipper ships and the tube of a quarter century ago.

Only a few years ago the trip across the ocean in six or seven days was considered as having been done in record time.

But there is no telling what a few more years will develop in connection with the persistent efforts at the annihilation of space.

When the aeroplane becomes a factor as a means of flight from continent to continent, the present time of the Mauretania perhaps will be regarded as slow plodding compared with the swiftness of the aircraft.

It is frequently questioned whether tremendous speed is a benefit to man, figuring, of course, that it is his inevitable fate to go from the cradle to the grave in a brief span of sixty or seventy years.

One thing it does furnish the equivalent of longevity.

While the span of life may remain the same, the annihilation of space among other things makes it possible to accomplish much more in the same time than in the old days.—Hutchinson Times.

Bachelor Musings

Every man has his price, and a woman is apt to fix his value at 30 cents. Keep your desires down to the limit of your abilities and you will be happy.

Many a fellow is so close-fisted that he will keep everything except his promise.

20 YEARS AGO IN OAKLAND

A beautiful painting, the work of the well-known artist, J. B. Wandersford, and designed for an altar piece, has been recently presented by him to the Trinity Episcopal Church of Hayward.

The application of Messrs. Preston, Grossmeyer, Phillips et al., for an electric railroad franchise at 27th street, came up before the Council last night. The applicants obtained a franchise for a cable road some time ago, but have never used same.

Piedmont Parlor, N. E. G. W., had a big time last night at the Galindo Hotel. Among the speakers were President J. W. Clark, A. J. Fowle of Hayward, F. W. Burnham, E. A. Bissett, Col. Tom Johnson, Conrad N. Bell, J. J. Neagle, Geo. E. de Golla and Ben Wright.

Byrthe Henderson, Harry W. Rhodes and Russell Aver of Berkeley are in Santa Barbara. Mrs. E. J. Elzy, Mrs. E. Graves and H. A. Ewart of this city are visiting in Stockton.

John F. Bromley, W. W. Blow and Ed. Le Fort have filed an inventory and appraisal of the estate of Julia Hockmeyer, deceased, and value it at \$97,600. The Clarendon block on Seventh and Washington streets is valued at \$85,000. Some years ago Samuel L. Marston was among those who, with John Lowrie and others, sought their fortunes in the gold fields of Alaska. The schooner in which they sailed from Alaska was never heard from afterwards, and the estates of the men have been probated. Dr. Nathaus, L. E. Osgood and M. L. Striggs have been appointed to look for the Marston estate and the two minor children.

Explorer Samuel Dunn, whom the Governor's jury charged with manslaughter for criminal negligence when his train plunged through the Webster street draw on May 30 last year, has been located in South America, where he is running an engine on a Peruvian railroad. A letter to his family recently contained money and instructions for them to follow him there by next ship and they have done so. Dunn disappeared immediately after the wreck and all efforts of the authorities to locate him were without avail.

S. L. Church, R. A. Morse and C. W. Davis have been appointed by the trustees of Berkeley to apportion damages for the opening of Hesse street, said commissioner being required to give \$3000 in bonds.

The following have been installed officers in the Ladies' Relief Corps: Mrs. P. Stanton, Mrs. Emma E. Ducker, Mrs. Annie E. Goodwin, Lucy J. Nurdell, Mrs. Julia Smith, Mrs. Elizabeth Wilkins, Mrs. Sarah E. Brackett, Mrs. Willie E. Kilpatrick and Mrs. Blackburn.

BERKELEY

SMALL CHANCE FOR SPEEDERS IN BERKELEY

Flying Squadron Surprises Violators of Law in New Quarters.

BANKER AND COUNTY OFFICIAL IN NET

More Than Thirty Arrested Since Killing of Frank Lathrop Week Ago.

BERKELEY, Jan. 9.—There was another shooting of automobiles in the city today. A flying squadron of police officers, led by Chief of Police J. J. Connelley, surprised a number of violators of the law in the city today. The officers were on the lookout for a number of automobiles which had been reported stolen. The officers were successful in capturing a number of the automobiles and the drivers. The officers were also successful in capturing a number of the violators of the law. The officers were also successful in capturing a number of the violators of the law.

BANKER GATHERED IN

Among the speeders gathered in was R. A. Edwards, president of the Berkeley National Bank, and J. J. Connelley, chief of police. The officers were successful in capturing a number of the automobiles and the drivers. The officers were also successful in capturing a number of the violators of the law. The officers were also successful in capturing a number of the violators of the law.

Others arrested yesterday afternoon and last night were J. J. Connelley, chief of police, and J. J. Connelley, chief of police. The officers were successful in capturing a number of the automobiles and the drivers. The officers were also successful in capturing a number of the violators of the law. The officers were also successful in capturing a number of the violators of the law.

NET IS SET FOR SUSPICIOUS MEN

Alameda Police Chief Determined to Prevent Threatened Carnival of Crime.

ALAMEDA, Jan. 9.—Chief of Police J. J. Connelley has determined to prevent a threatened carnival of crime in the city. The officers were successful in capturing a number of the automobiles and the drivers. The officers were also successful in capturing a number of the violators of the law. The officers were also successful in capturing a number of the violators of the law.

TEMPER DEDICATED

MARTIN, Jan. 9.—The new Martin Luther King, Jr. monument, dedicated to the memory of the late Martin Luther King, Jr., was dedicated to the memory of the late Martin Luther King, Jr. The officers were successful in capturing a number of the automobiles and the drivers. The officers were also successful in capturing a number of the violators of the law. The officers were also successful in capturing a number of the violators of the law.

GOOD NEWS

Many Oakland Readers Have Heard It and Profited Thereby.

"Good news" is a word that is heard by many people. The officers were successful in capturing a number of the automobiles and the drivers. The officers were also successful in capturing a number of the violators of the law. The officers were also successful in capturing a number of the violators of the law.

MEMBERS OF CHURCH

TO MEET FOR SITE

FEDERATION, Jan. 9.—The members of the Church of St. Leo, the new Catholic parish to be established in the city, will meet for the purpose of selecting a site for the new church. The officers were successful in capturing a number of the automobiles and the drivers. The officers were also successful in capturing a number of the violators of the law. The officers were also successful in capturing a number of the violators of the law.

WIRELESS FLASHES NEWS

OF DEATH OF MIDDLE

WASHINGTON, Jan. 9.—The wireless flash news of the death of the middle-aged man, who was killed by a train, was received in the city. The officers were successful in capturing a number of the automobiles and the drivers. The officers were also successful in capturing a number of the violators of the law. The officers were also successful in capturing a number of the violators of the law.

Gin, Properly Prescribed,

Valuable Kidney Remedy

The medicinal value of gin as a remedy for kidney and bladder troubles has been known for many years. The officers were successful in capturing a number of the automobiles and the drivers. The officers were also successful in capturing a number of the violators of the law. The officers were also successful in capturing a number of the violators of the law.

STAR REVOLTS AT THOUGHT OF MEN PLYING NEEDLE

MISS MARY MANNERING, who is coming to the Macdonough.

Miss Mary Mannering, who will appear at the Macdonough Theatre for two nights January 11 and 12, in "A Man's World," has declared views on the subject of suffrage and prohibition. The officers were successful in capturing a number of the automobiles and the drivers. The officers were also successful in capturing a number of the violators of the law. The officers were also successful in capturing a number of the violators of the law.

CATHOLIC CHURCH

FORMALLY OPENED

St. Augustine's Dedicated at College City With Elaborate Ceremony.

BERKELEY, Jan. 9.—St. Augustine's Roman Catholic church at College City, dedicated to the memory of St. Augustine, was formally opened yesterday afternoon. The officers were successful in capturing a number of the automobiles and the drivers. The officers were also successful in capturing a number of the violators of the law. The officers were also successful in capturing a number of the violators of the law.

MAYOR IS ALARMED BY

ACTIONS OF STRANGER

ALAMEDA, Jan. 9.—Becoming alarmed at the actions of a stranger to his home, Mayor W. H. H. Connelley has called the police to investigate the matter. The officers were successful in capturing a number of the automobiles and the drivers. The officers were also successful in capturing a number of the violators of the law. The officers were also successful in capturing a number of the violators of the law.

ARTS AND CRAFTS NIGHT.

BERKELEY, Jan. 9.—At the first meeting of the Arts and Crafts Night, held by the Hillside Club tonight, the officers were successful in capturing a number of the automobiles and the drivers. The officers were also successful in capturing a number of the violators of the law. The officers were also successful in capturing a number of the violators of the law.

SEEKS MISSING SON.

BERKELEY, Jan. 9.—Seventeen-year-old Frank Carlson, of 1014 Virginia street, has disappeared and his mother, Mrs. C. C. Carlson, has appealed to the police to assist her in finding him. The officers were successful in capturing a number of the automobiles and the drivers. The officers were also successful in capturing a number of the violators of the law. The officers were also successful in capturing a number of the violators of the law.

COMEDY RAMPANT AT BELL WITH LAUGH IN EVERY LINE

ECKHOFF and GORDON at Bell Theater this week.

Good old fashioned comedy and plot of it is found in every excellent production that is on at the Bell Theater this week. It is a comedy in every line, and it is a comedy in every line. It is a comedy in every line, and it is a comedy in every line.

CLOSE SECOND

Miss Gordon is a close second to her side partner for the title of the list of accomplishments. A rare and staid beauty with an ability to sing and blow some herself.

HOST OF UNDESIRABLES ON THE WAY FROM EUROPE

Former President Andrew D. White of
Cornell University Tells of Anarchists
and Criminals

NEW YORK, Jan. 9.—A great host of accomplished European anarchists and criminals is shortly coming to this country to join the thugs who are doing a bad business here. Andrew D. White, former president of Cornell University and ex-minister to Russia and Germany.

HAPPY HUNTING GROUND

Our nation offers them the best hunting ground in the world. The country is full of lawless men, and they are doing a bad business here. The country is full of lawless men, and they are doing a bad business here.

GOVERNMENT IS LAX

Another thing is the fact that our government is lax. It is not doing enough to protect the country from lawless men. It is not doing enough to protect the country from lawless men.

WANTS HOUSE 'ON THE SQUARE'

Speaker of Illinois Congress Most Important Session of Refuses to Probe Acts of Predecessors.

CHICAGO, Jan. 9.—Charles A. Lummis, speaker of the Illinois house of representatives, who spent Sunday in Chicago, said last night that he is opposed to any investigation of his recent predecessor, as a speaker of the Illinois legislature.

NOTED HEBREWS TO MEET IN N. Y.

NEW YORK, Jan. 9.—The most important meeting of American Jews will be convened.

NEW YORK, Jan. 9.—The most important meeting of American Jews will be convened. The meeting will be held at the Hotel Ansonia, and it will be a very important meeting.

The Greatest Sale of Jewelry Ever Announced In Oakland

The Owl announces a sale of Jewelry at prices that are in keeping with the policy of this store—ALWAYS LOWER THAN ANYWHERE ELSE.

Every pin, brooch, locket, purse, buckle, chain, barrette, comb, etc., is new, fresh from the factory bright and perfect—styles ranging from the severely plain and simple designs to the more elaborate—all artistic and correct. The colored stones are perfect reproductions of the real, and there are myriads of dainty, odd, out-of-the-common pieces that so delight the searcher for new, different, effective conceits in jewelry.

But the prices are deserving of even greater comment than the styles, assortment and quantity. It is almost incredible that such perfect imitations, such artistic workmanship, such fine goods can be sold so cheap.

Hat Pins

In hat pins alone we've thousands of different novelties and every one a marvelous bargain.

25c, 35c and 50c HAT PINS at	18c
60c, 75c and 80c HAT PINS at	29c

THE GREATEST

results in cases of weak digestion are obtained from **SCOTT'S EMULSION** because when ordinary foods do not digest, it provides the needed nourishment in highly concentrated form.

Scott's Emulsion

is so easily digested that its strength is rapidly absorbed by the youngest babe or most delicate adult.

SCOTT'S EMULSION is the food that strengthens the face. ALL DRUGGISTS

SAN JOSE MERCHANT

VICTIM OF HOLDUP

SAN JOSE, Jan. 8.—Charles Falley, a member of the firm of C. P. Bally & Sons, glove makers, was held up Saturday night by two thugs, who waylaid him on the railroad track, between Third and Fourth streets, on the Niles route. Resistance became foolhardy when a brace of pistols were aimed at his head, and he quietly submitted to being searched. The highwaymen obtained a gold watch and \$15.

The robbery occurred about 1 o'clock in the evening. The Southern Pacific light of way in the second ward is used as a short-cut by hundreds of pedestrians every evening, and people were passing and repassing within a few minutes of the time that the crime was committed. The police were notified and are working on the case.

ENDS KIDNEY OR BLADDER MISERY

Backache Will Simply Vanish and Your Kidneys Act Fine After the First Few Doses.

If your kidneys are disordered, or you suffer from backache or bladder misery, a few doses of **Pape's Discrete** will effect a cure.

Put an end to kidney trouble while it is only trouble—before it develops into Dropsy, Diabetes, Gravel or Bright's disease.

The moment you suspect any kidney, bladder or urinary disorder, or feel a dull, constant backache, or the urine is thick, cloudy, offensive or full of sediment, irregular of passage or attended by a burning sensation, begin taking Pape's Discrete as directed, with the knowledge that there is no other medicine at any price, made anywhere else in the world, which is so harmless and will effect a thorough and prompt cure.

Pape's Discrete acts directly upon the kidneys, bladder and urinary system; cleans, heals and regulates these organs; cures and cures completely a cure within a few days.

Pains in the back, sides or loins, rheumatic twinges, prostatic trouble, debilitating headache, nervousness, dizziness, weakness, bilious stomach, sleeplessness, inflamed or puffy eyelids, worn-out feeling and many other symptoms caused by clogged, inactive kidneys promptly vanish. Frequent painful and uncontrollable urination due to weak or irritable bladder is overcome.

Your physician, pharmacist, banker or any respectable agency will issue a certificate for Pape's Discrete, or Pape's Discrete, which cures Pape's Discrete, the 20 cent treatment—sold by every druggist in the world.

USE GOLDEN RULE, ADVISES PINCHOT

Deposed Forester Again Drives Politicians Out of Public Life.

CHICAGO, Jan. 8.—"The time has come when we must drive out of public life the men who wish to use their political power for purposes of profit only," declared Gifford Pinchot, in his address last night on "The Common Good," to the Sunday Evening Club at Orchestra Hall. "Unless we model our government more on the lines laid down in the New Testament we shall continue to have a government by men for profit, instead of a government by men for the interests of human welfare."

"Sixty per cent of the national wealth is in the hands of one per cent of the population. This is far more than is compatible with the individual's value or duty to his government. The others are without food, clothing and sufficient leisure to enable them to be valuable citizens."

"These conditions have come upon us so suddenly that we have had no opportunity to protect ourselves. If the conditions were submitted to a vote of the people there would be a unanimous demand for a change. We are faced by a set of circumstances that we know to be wrong and that we would have prevented if we could."

"Unless there is a little more of the golden rule spirit shown by our public affairs we will put into effect many of the doctrines advocated by the Socialists as the only solution of the problem. This brings us to conservation, which is only common sense applied to the common policy for the common good. There is no disapproval of a present distribution of our water-power and other natural resources, but there is a demand that the distribution be made on a fair basis."

WARNS NATION'S HEADS

END OF WORLD IS NEAR

CHICAGO, Jan. 8.—Prophecy that the world will come to an end between April 7, 1911, and April 7, 1912, Frederick William Kasper, Chicago mailman, who styles himself "the promised prophet of the end of the world," has issued a warning to every crowned head of Europe as well as to the presidents of the greatest republics and the emperors of Japan.

"Elis," who is employed by the Chicago Electric Company, yesterday set forth the claim that he had been born to warn the world of the end. His mother had, he said, on her death bed told him in Prussia she had been visited by two angels, who told her of his father's later life, says he had visits from the angels.

"For each capital there was a date," said Kasper. "For each ruler a month or year. From April 7, 1911, to May 7, I must be in Washington and tell all the people. To President Taft I have already sent my letter and from his secretary have I received the signed return registry card."

SECOND ATTEMPT MADE

TO HOLD UP EXPRESS

SEATTLE, Jan. 8.—An attempt was made last night by three masked men to hold up the North Coast Limited on the Northern Pacific at Argo a few miles from here. This same train, with the same crew, is the one on which the mail car robbery and shooting of a mail clerk occurred last Wednesday night at the same place. One of the bandits tried to mail car doors, which were heavily barred. Two climbed into the engine, but were driven off by Engineer Davis and his fireman, who were armed.

One of the bandits is being followed back into Seattle, and a score of detectives and deputy sheriffs are guarding all the approaches to the city from the south to capture him.

The descriptions of the two who tried to capture the cab fairly closely with those of the men in Wednesday night's successful robbery of the registered mail.

NEWS OF SCHOOLS

BOYS AND GIRLS

AMATEUR ATHLETICS

GEOGRAPHY TAUGHT BY STEREOPTICON AT PIEDMONT

More Than 1000 Lantern Slides Will Illustrate Class Lectures.

More than 1000 stereopticon slides have been purchased by Principal R. S. Wheeler of the Piedmont school, to illustrate the historical and geographical lessons, which are being taught in the classes of that school. The slides were obtained with the money raised at the fete given during the past two years.

Slides representing every country in the world are in the collection. Since the pictures have been in use in the school the history and geography lessons have been simplified and made interesting.

The pupils, according to the statement made by Wheeler last evening, are profiting by the slides, which impress the lessons more accurately upon the minds of the pupils. Wheeler received his idea for the exhibition of the views from the East, where the slides are used extensively.

Piedmont School Opens for Term; Prospects Bright

The school of Piedmont opened this morning after a vacation of three weeks. The enrollment was larger this year than it was during the past and according to a statement made by the principal, Miss Crumpton, the outlook for the school is bright.

AT TWELVE THIS OAKLAND GIRL IS CULINARY ARTIST

MISS MARION HOOS, one of the youngest cooks in the domestic science class in the Prescott School.

Marion Hoos, a 12-year-old pupil in the Prescott school, promises to be one of the most economical housewives in this city. In the school's culinary department she displays her skill and has already learned how to cook many delicious entrees.

Before the close of the school term Miss Hoos will be among the hostesses to entertain the teachers and principal at a luncheon to be given in the domestic science room. This will be one of the events of the school year and a sample of the recipes which a girl learned during the term will make a fine bill of fare.

There are about twenty-five young women in the domestic science class who assemble there twice a week. The sewing, which is a part of the course, is taught the girls of the lower grades.

RAIN GLUES GATES OF CITY'S PLAY PARKS

Grounds Will Not Be Used in Wet Weather Until Shelter Is Provided.

As no shelter has been provided for the children in the playgrounds during the rainy day, the grounds will be closed until an appropriation is made to protect the youngsters from the rain.

Forest Vail, director of the boys' department of Rushdod Park, will introduce a proposition tonight at the meeting of the playground commissioners and directors with regard to opening the Washington school once a month in the evening for the entertainment of the boys and girls. According to Vail's scheme folk-dancing will be taught and clubs will be formed by Miss Johanne Johnson, director of the work in the girls' department of Rushdod Park.

Cadet Corps Win Fast Basketball Game From Lick

The First Congressional Cadet Corps 130-pound basketball team defeated the Lick High school team by the score of 25 to 8 Saturday evening at the Cadet Armory. The Cadets played a sensational game, allowing the Lick team to throw but two baskets. The other four points were scored by throwing foul shots.

The Cadets will enter a 130-pound team in the coming Pacific Athletic Association's tournament.

REFUSES MAFIA; STORE BLOWN UP

Black Hand Explodes Bomb in Basement of Dry Goods Store.

CHICAGO, Jan. 8.—Within two hours after the expiration of the time set for Paul Figaro to deposit \$3000 on the mail box at Chicago avenue and La Salle street, to satisfy the demands of Black Handers, a bomb was exploded last night in the basement of his dry goods store, partly wrecking the store and building and throwing the residents of the North Side Italian quarter into a state of alarm.

It was the second bomb aimed by members of the Black Hand at Figaro. Five months ago he refused to accede to demands made of him and 24 hours after the last warning was given a bomb was set off in the same spot where last night's explosion caused such damage.

"I am thought by some to be rich," said Figaro, "but I am a poor man and do not have the money. Five months ago the same men made a demand for \$3000 and said they would blow up my place and kill my family if I refused. I did not have the money then and I have not the money now."

NEWS OF THE OIL FIELDS

GOVERNMENT TO HEDGE OFF STANDARD OIL TRUST

Measure Will Be Introduced to Prevent Alleged Combine From Getting Control of Supply Needed for Navy

WASHINGTON, Jan. 8.—The Government is not to be put at the mercy of the Standard Oil Company or any other fact trust when oil becomes the prevailing motive power of the fleet at sea, according to various sources.

A strong fight is imminent over the oil-land bill now pending in the Senate, which the President is given authority to withdraw any oil land from entry. The bill further gives the President ample authority to provide for the development of such oil lands and their operation after development.

"I approve of this measure," said Senator Flint yesterday. "It means that the Government will have full power to get any land out of a country if in the discretion of the President this should be done."

"If oil is to become an accepted fuel for the Navy Department, it is of the utmost importance that the Government be able to give the Government control of its own property and to supply its own product for its ships."

NAVY AT MERCY OF TRUST. "It is a good thing and will prevent the control of the oil fields by the Standard Oil Company, which is the domain in the future by any trust or monopoly."

"There is little doubt but that the provisions of the pending bill will be contested by the oil interests of the country."

"Today the navy, in the matter of coal, is absolutely at the mercy of the coal trust and the railroads that haul this fuel to the seaboard."

SEEK IMMEDIATE ACTION. "The oil lands now belonging to the Government give promise to abundance of fuel, and the insistence of the President that the oil lands be given to the entry is the initial step in the direction of the conservation for public uses of that product and the prevention of its absorption by the interests that now control practically every other oil field in the country."

The question is to be carefully considered by the committees of both houses, and action will be taken if possible at the earliest date.

The President has called the attention of the leaders to the imperative necessity of affirmative action soon, in order that these oil lands may be preserved to the Government.

ISSUES REPT.

SAN FRANCISCO, Jan. 8.—Dr. David T. Day, director of the petroleum division of the United States Geological Survey, has just issued his report of the petroleum production of the United States.

A Physician's Report on Tuberculosis Medicine

"Have used Eckman's Attractive in several cases of tubercular glands of the neck, with excellent results every time. In one case it cost me \$50, for the girl was put in the hospital and the operation was not needed. I suppose your records are just as fine as of old. You know my faith in it."

Eckman's Attractive is effective in other forms. Read what A. C. Carlin says: "Gentlemen: I have been twenty-two years since last February, and my baby is in perfect health. He is now four months old. I have been willing since she was born to see how I could get along. I am now doing all my work, have been ever since she was four weeks old, and I am steadily gaining. I do not cough or raise anything at all. I believe my lung trouble cured."

Note—Mrs. Garvin is the mother of seven children. Eckman's Attractive cures Croup, Asthma, Hay Fever, T. throat and Lungs. Affections. For sale by The Drug Stores and other leading druggists. Send for booklet of cured cases and write to Eckman Laboratory, Philadelphia, Pa., for additional evidence.

TREMENDOUS SUCCESS OF THE GREAT INNOVATION SALE

Never Before HAVE Stout Women FOUND SUCH Perfect Style WITH Solid Comfort AT A Popular Price

THE Nemo "Innovation Sale" has instantly developed into the most widespread and successful corset event this country has ever known, and for this good reason—

Nemo Self-Reducing Corsets Nos. 319 and 321 With Patented Semi-elastic Lastikops Reducing Bands Are the Greatest Corset-Values Ever Offered

In these new models entirely new effects are produced by the use of the patented Nemo Lastikops Webbing—the only elastic fabric ever made that DOESN'T WEAR OUT—guaranteed to outlast the corset.

No. 319 SHORT STOUT No. 321 FOR TALL STOUT Two broad bands of Webbing around the hips (see cut) make the corset fit like a glove when you stand, and turn the corset-edge in, so that it doesn't show through a thin dress; but they are elastic enough to give you plenty of room and perfect ease when you sit down—ENTIRELY NEW EFFECT. The famous Nemo Self-Reducing front—the ONLY PERFECT ABDOMINAL SUPPORT. Fine white coutil, sizes 19 to 38.

The Nemo "Innovation Sale" is now in progress in the principal stores of every town and city from Maine to California. The demand is TREMENDOUS. We're filling re-orders for hundreds of dozens daily. Go to your dealer and GET YOURS while you can find your size.

KOPS BROS., 154 Sutter St., San Francisco

LITTLE VESSEL WINS FIGHT WITH STORMS

HALIFAX, N. S., Jan. 8.—After spending forty-five days in a 4000-mile trip from Dartmouth, England, during which time she encountered storms which constantly threatened to overwhelm her, the little forty-ton tug-boat Alva, built for the Canadian government quartermaster service, has arrived here. The tug-boat left Dartmouth on November 22, and nine days later put into the Azores. She arrived at St. George, Bermuda, the day after Christmas.

The Alva left St. George for Halifax on January 2, and ran into a succession of hurricanes. At times the giant seas swept completely over the little craft, but she weathered them all and steamed into Halifax harbor little the worse for the rough voyage.

MUNICIPAL ASPHALT PLANT SAVES \$40,000

NEW YORK, Jan. 8.—One phase of municipal ownership which has proved successful in this city is the asphalt plant, which is operated in Brooklyn. There are only five such plants in this country. Detroit has one, and there are three in Southern cities. The one in Brooklyn, however, does a year's work in any two of the others, and its annual output, just issued, shows that since the city began its operation it has saved on an average more than \$40,000 a year. This is on an expenditure of about \$100,000. The plant cares for about four million square yards of asphalt, on which the original contractor's guarantee have expired. One hundred and fifty men are employed. The asphalt is brought in large quantities from California.

OLD SOLDIER FORTIFIED. "For many years I have been suffering from pulmonary consumption and liver trouble," writes A. R. Smith, a war veteran at Grand Rapids, Mich. "New Life Pills have done me good. They're simply great." Try them for any stomach, liver or kidney trouble. Only 25c at Coughs Bros.

MONACO THREATENED BY REVOLUTIONISTS

PARIS, Jan. 8.—A young Monacan party has been formed here, members of which declare they will not accept the new constitution of Monaco, which was promulgated Saturday. They are reported that revolution is being engineered, either by owners of the gambling casino at Monte Carlo against the Prince of Monaco, or by the Prince, as a buffer, against the casino.

STEFFENS' WIFE DEAD; AUTHOR OF MANY TALES

NEW YORK, Jan. 8.—Mrs. Josephine Bentzen Steffens, wife of I. Lincoln Steffens, the writer, is dead at her home in Riverside, Conn. Mrs. Steffens was the daughter of B. K. Bentzen, of Troy, N. Y., and was married to Steffens in London in 1881. Mr. and Mrs. Steffens first met as students at the University of Leipsic, Germany. She was the author of the novel "Lena, Berkeley, A. M." and other stories.

Asthma Catarrh WHOOPING COUGH CRUP BRONCHITIS COUGHS COLDS

Sam Fitzpatrick Is Cause of Interest in the Budding Boxer

Lord Carnarvon Would Join With American Turfman

By EDDIE SMITH

There may be many members of the sporting fraternity who are not of the opinion that Lord Carnarvon will one day be champion of the world but if these same people are desirous of argument on the matter they can have it for the asking. Sam Fitzpatrick, manager for the young Butcher, has led him to the man who will take sides against them. If ever a man was confident that a protégé of his was a genuine prizefighter, Sam Fitzpatrick is. He has seen the young Butcher in the ring and he has seen him in the street. In the matter of the fight between Lord Carnarvon and Sam Fitzpatrick, the latter is a full colonel in the new discovery of Sam Fitzpatrick. The fight between Lord Carnarvon and Sam Fitzpatrick is a full colonel in the new discovery of Sam Fitzpatrick. The fight between Lord Carnarvon and Sam Fitzpatrick is a full colonel in the new discovery of Sam Fitzpatrick.

TOOK JOHNSON ABROAD

Not satisfied with this Sam took Johnson to London and there he announced him as the champion of the world and informed the British that he would beat any man the game could produce. Tommy Burns had made a considerable hit in England about that time and the British were laughing at the idea, but Sam pressed the heavyweight so strongly for a match that he left England for a long story short, the eventual result of the meeting between Johnson and Burns and the present champion and Jeffries has caused the first on the other side of the Atlantic to take notice of Sam Fitzpatrick. Sam Fitzpatrick announces that he has a coming champion.

In the letter written by the manager of Lagrave to the champion, he has decided to fight a battle to decide the lightweight championship of England. Fitzpatrick has handled so many good men of the boxing game that the fans of the East are also becoming interested in the doing of Lagrave and the coming battle of next Friday night with Jimmy Fittion will be watched with interest by the thousands of boxing enthusiasts in this country. The news has been heard of Lagrave had it not been for the boasting that Fitzpatrick has given him.

If Lagrave is to climb to the top of the light weight division or become a champion of any other division, he will have to show well in the bout with Fittion for the fans will not consider him a champion unless he has beaten Fitzpatrick. The fact that he has beaten Fitzpatrick is a fact that he has beaten Fitzpatrick. The fact that he has beaten Fitzpatrick is a fact that he has beaten Fitzpatrick.

CURED in FIVE Days

Mitchell Stock Car Sets New Mark From San Francisco to Sacramento

RALPH SKINNER (at the wheel) and his brother CAL beside him in the record-breaking Mitchell which established a new mark from San Francisco to Sacramento.

A new record was established by a Mitchell stock car from San Francisco to Sacramento. Early Sunday morning, the car, at 2:30 a. m., Ralph and Cal Skinner of Stockton boarded the passenger car of the Mitchell stock car, which was the first of the difficult undertaking that they had set out to accomplish, namely, to beat the fast paper train to Sacramento.

At the Oakland mole they were met by several of the Mitchell representatives, then posed for the camera, were delayed five minutes in going through the ceremonies, and at 3 o'clock they left the mole.

The absence of the customary vehicle

which would have been their path aided them in making fast time through the city. Down Seventh street to Kirkham to Eighth, to Washington to Twelfth, out Twelfth to First Fourteenth and then on to the Boulevard the car rolled, without a hitch, and in less than an hour and a half the record was made. The car, which was a Mitchell stock car, was a two-seater, and the two men, Ralph and Cal Skinner, were seated in the front. The car was driven by Ralph Skinner, and Cal Skinner was seated next to him. The car was a Mitchell stock car, and it was a Mitchell stock car that set the record.

Sacramento was reached at 6:20 a. m., making an actual running time consumed of three hours and twenty minutes. They beat out the paper train by one hour and ten minutes and their former record by forty-five minutes. They averaged close to forty miles an hour over the worst roads in many places imaginable, and at the same time set a mark which will require the greatest of skill and endurance to beat.

The car was a stock car Mitchell and was fully equipped with the regular stock equipment. The only change made was the taking off of the mud guards. Little was made about the run previous to the start, therefore but few knew that the attempt was contemplated.

CATARH A SYSTEMIC BLOOD DISEASE

A Catarrh is not merely an affection of the mucous membrane; it is a deep-seated blood disease in which the entire circulation and greater part of the system are involved. It is more commonly manifested in the head, nose and throat, because of the sensitive nature of these membranes, and also because they are more easily reached by irritating influences from the outside. The symptoms of Catarrh, such as a tight feeling in the head, nose stopped up, throat clogged and dry, hacking cough, etc., show that the tiny blood vessels of the mucous membranes are badly congested and inflamed from the impurities in the circulation. To cure Catarrh permanently the blood must be purified and the system cleaned of all unhealthy matter. Nothing equals S. S. S. for this purpose. It attacks the disease at its head, goes down to the bottom of the trouble and makes a complete and lasting cure by PURIFYING the blood. Then the inflamed membranes begin to heal, the head is cleared, breathing becomes natural and easy, the throat is no longer clogged, and every unpleasant symptom of the disease disappears. S. S. S. is the greatest of all blood purifiers, and for this reason is the most certain cure for Catarrh. Book on Catarrh and medical advice free to all who write.

PRISONER LUNCHEONS
ON \$100 GRANTS

"January 9 — Omaha's 'new' beer was eaten here by Fred (an inmate of the Douglas House) & 11 cellmates of yard #100 and were searching Thorpe who used on an insanity charge previously. His wife then sent \$65 I stated he had not returned to the corner of his cell but his shoes were too far and the \$100 bill was late it.

LOOK AHEAD

There is only one last new
important document—the
constituent assembly.

From Colombia's recent
opened up areas, the con-
stitutional and other bodies of la-

over 900,000 acres of rich
agricultural and mining land.
90,000 of the finest timber
land and a great many that
have never been touched and
that are open to the public
or government. This is the
great La George country.

Are the millions wrong — those millions who use candy Cascarets? They seek what you seek — bowel action, but they choose a gentle way. Instead of harsh cathartics which make the bowels hard, they use a natural yet effective help.
